SISTEMA PUERTAS CORREDERAS

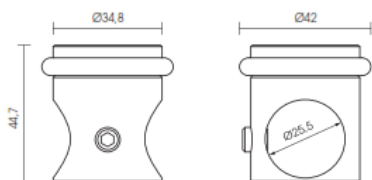

Cierre y Tirador puerta corredera

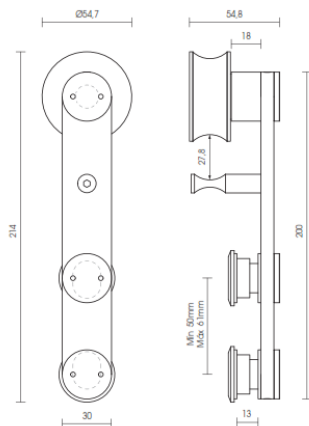

Guíador inferior puerta

Tope puerta

Polea superior

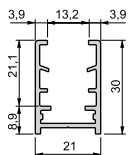

Todos nuestros herrajes para cabinas sanitarias y taquillas están fabricados en acero inoxidable lo que garantiza la máxima calidad y durabilidad, su resistencia a la corrosión y su facilidad de limpieza.

Para su conservación no es recomendable utilizar productos químicos ya que pueden dañar o rayar la superficie, solo con un paño suave y húmedo bastará para limpiar las marcas de dedos u otras manchas.

Formatos

El Compacto Interior de Fundermax son placas laminadas de alta presión (HPL), de acuerdo con la norma EN 438, cuyo proceso productivo tiene lugar en prensas de laminado a gran presión a una temperatura elevada.

Son especialmente recomendables en aplicaciones con un gran nivel de exigencia como muebles de hogar, mobiliario de oficina, revestimiento de paredes o instalaciones y cabinas sanitarias.
